

Graduate Trainee Programme – Career Journey

Eligibility Criteria

We are looking for passionate, curious, and high-potential graduates who are eager to kick-start their careers in technology.

Academic Qualification:

- **B.E. / B.Tech – 2027 Passing Out Batch**
- **Minimum CGPA: 7.0 or above throughout academics**

Eligible Disciplines:

- Industrial Engineering (IE)
- Electrical & Electronics Engineering (EEE)
- Mechanical Engineering
- Chemical Engineering
- Electronics & Communication Engineering (ECE)

Your Journey Begins Here!

Selected graduates will be enrolled in our exclusive **3-Month Incubator Training Programme** during the final phase of your academic journey.

This intensive programme is designed to transform students into industry-ready professionals by providing hands-on exposure to **emerging and trending technologies**, real-world business scenarios, and professional consulting practices.

During the Incubator Programme, you will:

- ✦ Learn from experienced industry mentors and technology leaders
- ✦ Gain exposure to cutting-edge technologies such as AI, Cloud, Automation, and Digital Transformation
- ✦ Work on real-life business problems, case studies, and simulations
- ✦ Develop technical, communication, and professional skills essential for success in the corporate world
- ✦ Experience a collaborative, innovative, and high-performance work environment

From Classroom to Corporate – We Make You Project Ready!

The Incubator Programme is more than just training—it's your gateway to an exciting career. Graduates who successfully complete the programme will be **absorbed into live customer projects**, where they will have the opportunity to contribute, innovate, and create impact from day one.

At Sandhata, we don't just hire graduates—we invest in future innovators, problem-solvers, and leaders. If you're ready to learn, grow, and shape the future of technology, we would love to have you on this journey! 🌟💡💻
